

GreenRoad Mobile

GreenRoad's mobile platform and performance management experts equip you with actionable data and personal guidance to optimise your fleet and driver performance.

150

driving manoeuvres

GreenRoad monitors more risk related driving manoeuvres and events than any other company worldwide

500,000

driving years

GreenRoad has logged more than 500k driving years across 20 countries and 30 industries gaining critical insights that have helped us become the global safety and performance experts

Just-In-Time, In-Vehicle Feedback

Access GreenRoad's driver safety and fleet performance management solution on your mobile device, tablet or smartphone.

GreenRoad Mobile transforms your fleet mobile devices into an effective in-vehicle driving coach. Real-time feedback is delivered through clear, understandable data and coaching so that drivers immediately correct unsafe or inefficient behaviour.

Driver And Fleet Performance

GreenRoad Mobile provides your business the value of the GreenRoad Central web portal. With real-time fleet intelligence, powerful analytics and management tools:

- Gain meaningful, real-time visibility into fleet location and performance
- Correct unsafe and costly driver behavior
- Significantly improve fuel efficiency and reduce operational costs
- Measure, track and improve your fleet KPI's

GreenRoad Mobile helps organisations achieve sustainable improvement in their operating margins by lowering overall risk, fuel costs and vehicle maintenance.

Actionable Insights and Data

Fleet and safety managers and their drivers can check personalised data anytime through our easy to use interface.

- Access to trip data, safety scores and other key performance metrics in the mobile dashboard
- Track fleet vehicles on a Live Fleet map for a quick review of your fleet activity

Quick, Low Cost Implementation

Fleets of any size can quickly adopt our mobile technology and implement a full scale driver and fleet performance management program within weeks.

- No costly or timely installation process
- No in-vehicle equipment to purchase
- Quick on-boarding process
- Easy to download and access the application for any driver through Apple and Android marketplaces

Access To Performance Experts

Our industry and vertical experts will work with you every step of the way and give you guidance by providing:

- Best practices for driver management and engagement
- Best practices for driver coaching
- Best practices for on-going fleet performance monitoring and exception based management
- Best practices for using GreenRoad big data analysis (hotspots and reporting)

Hours of Service

Fleet and Safety Managers now have access to critical HOS data anytime with GreenRoad Mobile. A simple connection to a vehicle's on-board computer will provide time-stamp logs related to vehicle mileage and hours of operation.
